Austin,

I understand you'd like to share the Java reflections tutorial you developed on GitHub. From what we've discussed the tutorial was not written on company time or resources, contains no Liberty Mutual code, contains no references to Liberty Mutual, resembles no Liberty Mutual systems, and contains no Liberty Mutual patterns nor Liberty Mutual trade secrets/IP. I understand that you shared it with your peers at Liberty Mutual, but given there is no use of Liberty IP and it was not developed using any Liberty resources (and done on your own time and with your own equipment) I'm comfortable with you sharing this material publicly.

Please let me know if you have any questions.

Dave Green

Director, Liberty Mutual IT
